If you leave comments or ratings on products, in addition to this information, the time of their creation and your first name and the first letter of your last name are stored and displayed with the respective product. In each individual case, we check in advance whether you have actually purchased the goods from us. We are obliged to do this in accordance with the law to strengthen consumer protection and trade law. This also serves our security, as we can be prosecuted for illegal content on our website. We collect this data on the basis of our legitimate interests within the meaning of Art. 6 para. 1 f GDPR.

### **Cookies**

On this website we use so-called cookies, to make your visit more convenient and secure. Cookies are small text files stored on your computer. Most of them are valid during your visit only, so-called session cookies. You can reject cookies by an option in your browser. This is possible in all popular Internet browsers. A detailed reference how to reject cookies can be found on this website <https://allaboutcookies.org/>

Please note: If you deactivate the setting of cookies in the Internet browser used, not all functions of this website may be entirely usable.

### **Use of Google Adwords**

On this website we integrated Google AdWords and Google Conversion Tracking. Google AdWords is a service for Internet advertising that allows the advertiser to place ads in Google search engine results and the Google advertising network. Google AdWords allows an advertiser to pre-define specific keywords with the help of which an ad on Google's search results only then displayed, when the user utilizes the search engine to retrieve a keyword-relevant search result. In the Google Advertising Network, the ads are distributed on relevant web pages using an automatic algorithm, taking into account the previously defined keywords. The operating company of Google AdWords is Google Inc., 1600 Amphitheatre Pkwy, Mountain View, CA 94043-1351, United States.

The purpose of Google AdWords is the promotion of our website by the inclusion of relevant advertising on the websites of third parties and in the search engine results of the search engine Google and an insertion of third-party advertising on our website. If you reach our website via a Google ad, a conversion cookie is filed on the information technology system of the data subject through Google. The definition of cookies is explained on this page. A conversion cookie loses its validity after 30 days and is not used to identify the data subject. If the cookie has not expired, the conversion cookie is used to check whether certain sub-pages, e.g. the shopping cart from an online shop system, were called up on our website. Through the conversion cookie, both Google and the controller can understand whether a person who reached an AdWords ad on our website generated sales, that is, executed or canceled a sale of goods.

The data and information collected through the use of the conversion cookie is used by Google to create visit statistics for our website. These visit statistics are used in order to determine the total number of users who have been served through AdWords ads to ascertain the success or failure of each AdWords ad and to optimize our AdWords ads in the future. Neither our company nor other Google AdWords advertisers receive information from Google that could identify the data subject. You may, at any time, prevent the setting of cookies by our website, as stated above, by means of a corresponding setting of the Internet browser used and thus permanently deny the setting of cookies. Such a setting of the Internet browser used would also prevent Google from placing a conversion cookie on the information technology system of the data subject. In addition, a cookie set by Google AdWords may be deleted at any time via the Internet browser or other software programs.

### **Use of Google Maps**

On this website we use Google Maps API to display geographical information. During to the use of Google Maps Google will also collect and process data about the use of the map functions by visitors. For more information concerning the data processing please see the Google privacy policy. You can adjust your personal privacy settings by using the Google privacy center.

If you do not wish to have data collected about you by Facebook via our website, you need to log out of Facebook before visiting the site. This applies analogously to all similar social plugins.

## PayPal as a payment processor

Our web site uses components of the online payment service provider PayPal. Payments are processed via so-called PayPal accounts, which represent virtual private or business accounts. PayPal is also able to process virtual payments through credit cards or debit entry, also when a user does not have a PayPal account. A PayPal account is managed via an e-mail address, which is why there are no classic account numbers. PayPal makes it possible to trigger online payments to third parties or to receive payments. PayPal also accepts trustee functions and offers buyer protection services. The European operating company of PayPal is PayPal (Europe) S.à.r.l. & Cie. S.C.A., 22-24 Boulevard Royal, 2449 Luxembourg, Luxembourg.

If you choose "PayPal" as the payment option in the online shop during the ordering process, we automatically transmit your data to PayPal. By selecting this payment option, you agree to the transfer of personal data required for payment processing. The personal data transmitted to PayPal is usually first name, last name, address, email address, IP address, telephone number, mobile phone number, or other data necessary for payment processing. The processing of the purchase contract also requires such personal data, which are in connection with the respective order. The transmission of the data is aimed at payment processing and fraud prevention. The controller will transfer personal data to PayPal, in particular, if a legitimate interest in the transmission is given. The personal data exchanged between PayPal and the controller for the processing of the data will be transmitted by PayPal to economic credit agencies. This transmission is intended for identity and creditworthiness checks. PayPal will, if necessary, pass on personal data to affiliates and service providers or subcontractors to the extent that this is necessary to fulfill contractual obligations or for data to be processed in the order. Please find the PayPal terms and conditions for payment upon invoice here [https://www.paypal.com/de/webapps/mpp/ua/pui-terms?locale.x=en\\_en](https://www.paypal.com/de/webapps/mpp/ua/pui-terms?locale.x=en_en), the PayPal EEA Privacy Policy here [https://www.paypal.com/de/webapps/mpp/ua/privacy-prev?locale.x=en\\_en](https://www.paypal.com/de/webapps/mpp/ua/privacy-prev?locale.x=en_en) and information about the PayPal identity check and data exchange with credit agencies here [https://www.paypal.com/de/webapps/mpp/ua/creditchk?locale.x=en\\_en](https://www.paypal.com/de/webapps/mpp/ua/creditchk?locale.x=en_en)

You have the possibility to revoke consent for the handling of personal data at any time from PayPal. A revocation shall not have any effect on personal data which must be processed, used or transmitted in accordance with (contractual) payment processing. The applicable data protection provisions of PayPal may be retrieved under <https://www.paypal.com/us/webapps/mpp/ua/privacy-full>
